MRI Results Specialist Review

North Cove Demo Spine Clinic

Patient: Jordan Test | Fully fictional identity

Date of service: 2024-04-10

Record type: Specialist | Prepared by: Consulting clinician

REASON FOR CONTACT

Consultation regarding previously reported lumbar MRI findings.

OBSERVATIONS / FINDINGS

Imaging narrative describes a small lumbar disc protrusion with possible left-sided nerve-root contact.

ASSESSMENT / INTERPRETATION

Radiologic finding may contribute to reported symptoms; clinical correlation required.

PLAN / NEXT STEP

Continue conservative care with interval reassessment; discuss escalation only if clinically indicated.

Fabricated names, facilities, symptoms and events for testing only.
Not clinical advice, evidence, a claim record or a real medical chart.
