Occupational Therapy Intake

Blue Ridge Demo Occupational Therapy

Patient: Jordan Test | Fully fictional identity

Date of service: 2024-04-16

Record type: Occupational therapy | Prepared by: Occupational therapist

REASON FOR CONTACT

Desk, lifting, and commute demands at hypothetical workplace.

OBSERVATIONS / FINDINGS

Prolonged static posture increases reported discomfort; light-item handling tolerated for brief periods.

ASSESSMENT / INTERPRETATION

Activity-modification strategies may support graded work participation.

PLAN / NEXT STEP

Trial ergonomic changes, microbreaks, and a gradual return-to-task plan.

Fabricated names, facilities, symptoms and events for testing only.
Not clinical advice, evidence, a claim record or a real medical chart.
